MaritimeWoodcraft

140 YEARS OF CRAFTSMANSHIP

The company was founded by H. J. Jacobsen back in 1870 at the port of Svendborg.

Back then skilled craftsmen carefully crafted every block, wheel, mallet, reel, cleat, step etc. with emphasis on safety and high quality.

Today things are still handmade and our expertise is based on the knowledge of many generations.

Until 2014 MaritimeWoodcraft was known under the name ***H. J. Jacobsen's Successor***. A family driven manufacturer known internationally. Today we are located in the little maritime town Marstal near Svendborg.

TRADITIONAL CRAFTSMANSHIP IN A MODERN CONTEXT

A part of our business has always been the ability to make custom solutions for classic ships. MaritimeWoodcraft has supplied the Danish royal yacht Dannebrog , Georg Stage , Fulton , Fregatten Jylland and many others.

Some of the world's largest container ships from MAERSK are controlled with steering wheels from MaritimeWoodcraft.

Wooden Ship Blocks

Robust blocks, made from first-class ash wood as single, double or triple blocks. These blocks have been produced more or less unaltered for working ships and gaffers since 1870.

The housings are copper-riveted, and the fittings have a solid and long-lasting galvanization.

The standard blocks come varnished or unfinished, so they can be finished to match the color scheme of the boat.

The sheaves are made from high-strength reinforced nylon and run on stainless steel axis bolts, that in sizes 4"-7" have a patented safeguard against unscrewing.

These blocks conform to standards set by *Lloyds Register of Shipping* and *Bureau Veritas*.

The working load limit (WLL) is factor 5 of the given breaking load (BRL).

Pricelist 2025 - DKK/Euro

A technical drawing of a wooden cringle, which is a circular wooden ring with a central hole. The drawing is shown in a perspective view. Three dimensions are indicated with red lines and labels: 'A' is the inner diameter of the central hole, 'B' is the thickness of the ring, and 'C' is the outer diameter of the ring.
